

Wayfinding Map Totems – Christchurch 2022

Funding has been secured through the Transforming Cities project to deliver 20 Wayfinding Map Totems at key locations in Christchurch Town Centre.

The totems will provide clear information for both residents and visitors. They will connect the Christchurch Rail Station, principal bus stops and carparks with key destinations such as the High Street, Hospital, Priory and Harbour. The “heads up” mapping will show how easy it is to walk to access local amenities and explore the local neighbourhood.

Sample “Heads Up” Mapping (example from Poole)

Maps will show carparks, bus stops, rail station, bike hire parking, cycle routes, local ferries, retail/shopping areas, business parks, key points of interest and visitor attractions. All principal road names shown plus walking distances to key destinations.
